Highway Ticketing System

➤ Form1 (Logging & Registration).

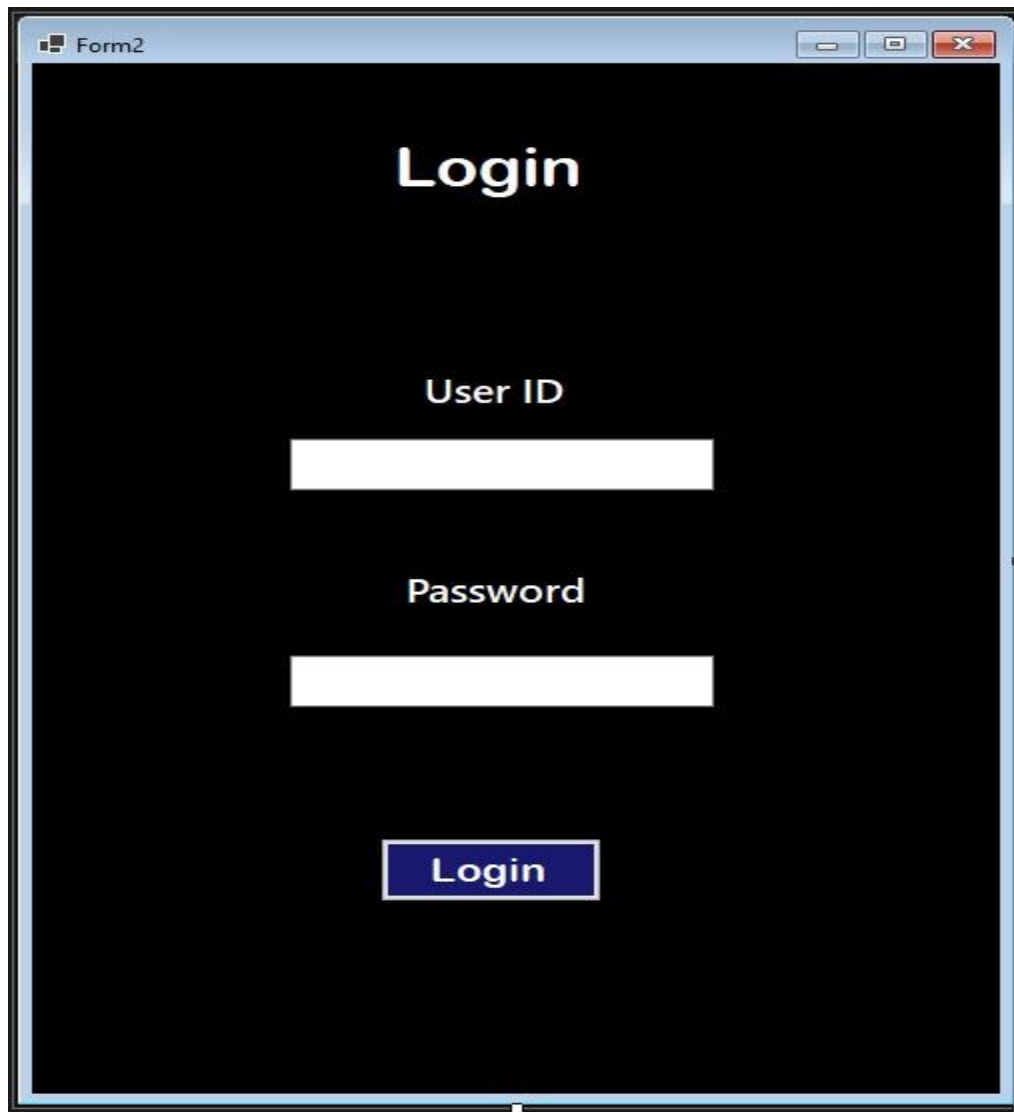

Welcome Page

This is the main entry page of the Highway Ticketing System. It has two buttons: "**Log**" and "**Register**".

- New employees can click "**Register**" to create their account by entering their personal details and setting up a password.
- Existing employees can click "**Log**" to sign in using their User ID and Password to access the system.

This ensures only authorized employees can manage vehicle entries and billing.

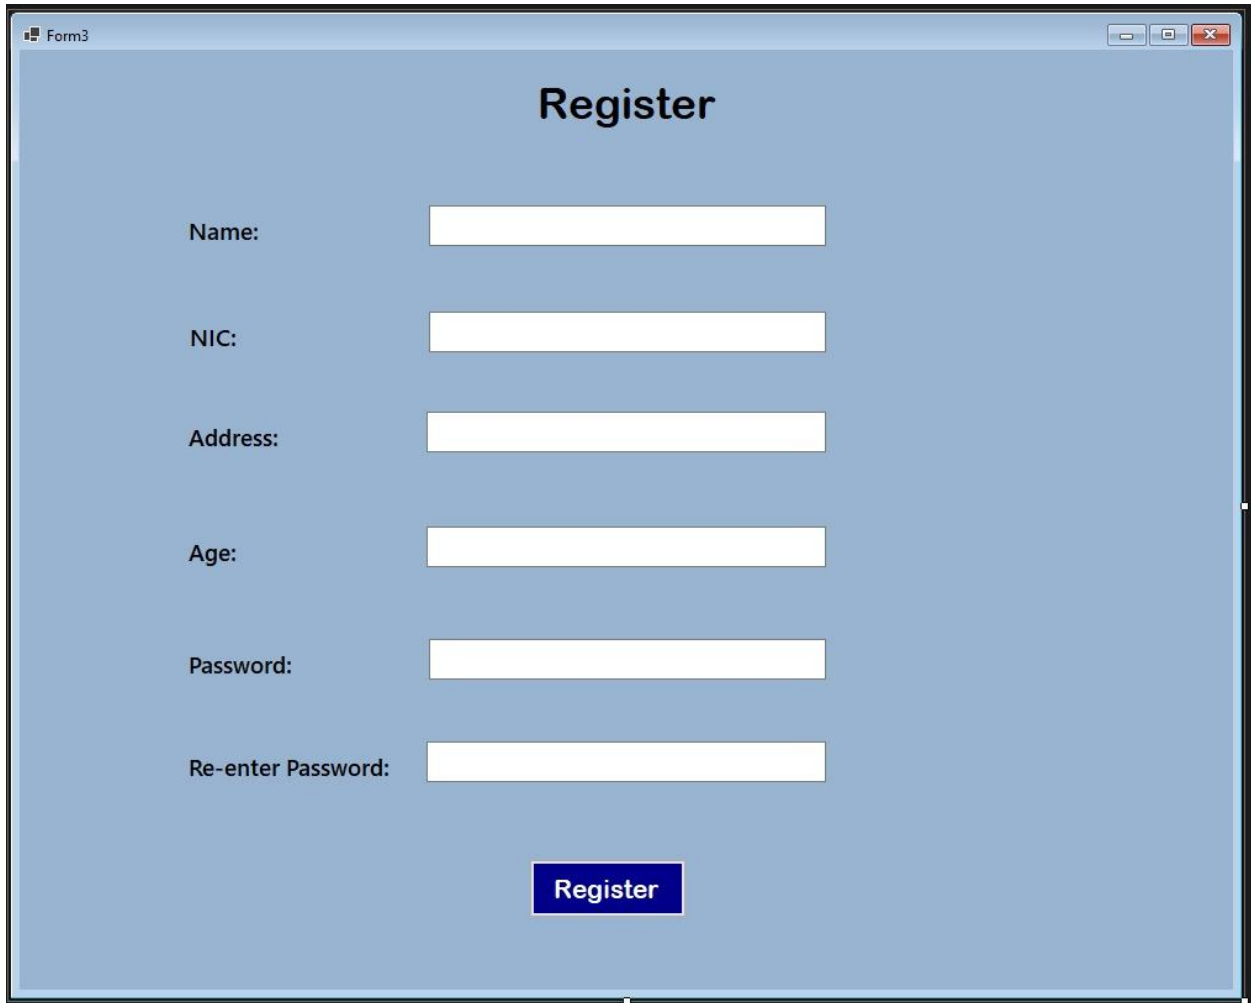

➤ Form2(Logging Page).

The image shows a screenshot of a software window titled "Form2". The window has a black background with white text and input fields. At the top, the word "Login" is displayed in a large, bold, white font. Below this, the text "User ID" is centered above a white rectangular input field. Further down, the text "Password" is centered above another white rectangular input field. At the bottom of the form, there is a blue rectangular button with the word "Login" written in white. The window's title bar is light blue and contains standard minimize, maximize, and close buttons.

Login Page

This is the **login page** of the Highway Ticketing System. Existing employees can access the system by entering their **User ID** and **Password** in the provided fields. After entering the correct details, clicking the "**Login**" button will take them to the main system dashboard, where they can perform their entrance or exit point duties. This ensures secure access and protects the system from unauthorized use.

➤ Form3(Ticketing Employee Registration).

Form3

Register

Register

Registration Form

This is the **registration page** of the Highway Ticketing System. New employees can create their account by entering their personal details, including **Name, Address, NIC, Age**, and by **creating a Password**. After submitting the form, they will receive a **User ID**, which they can use along with their password to log into the system. This process ensures that only registered employees can access and operate the system.

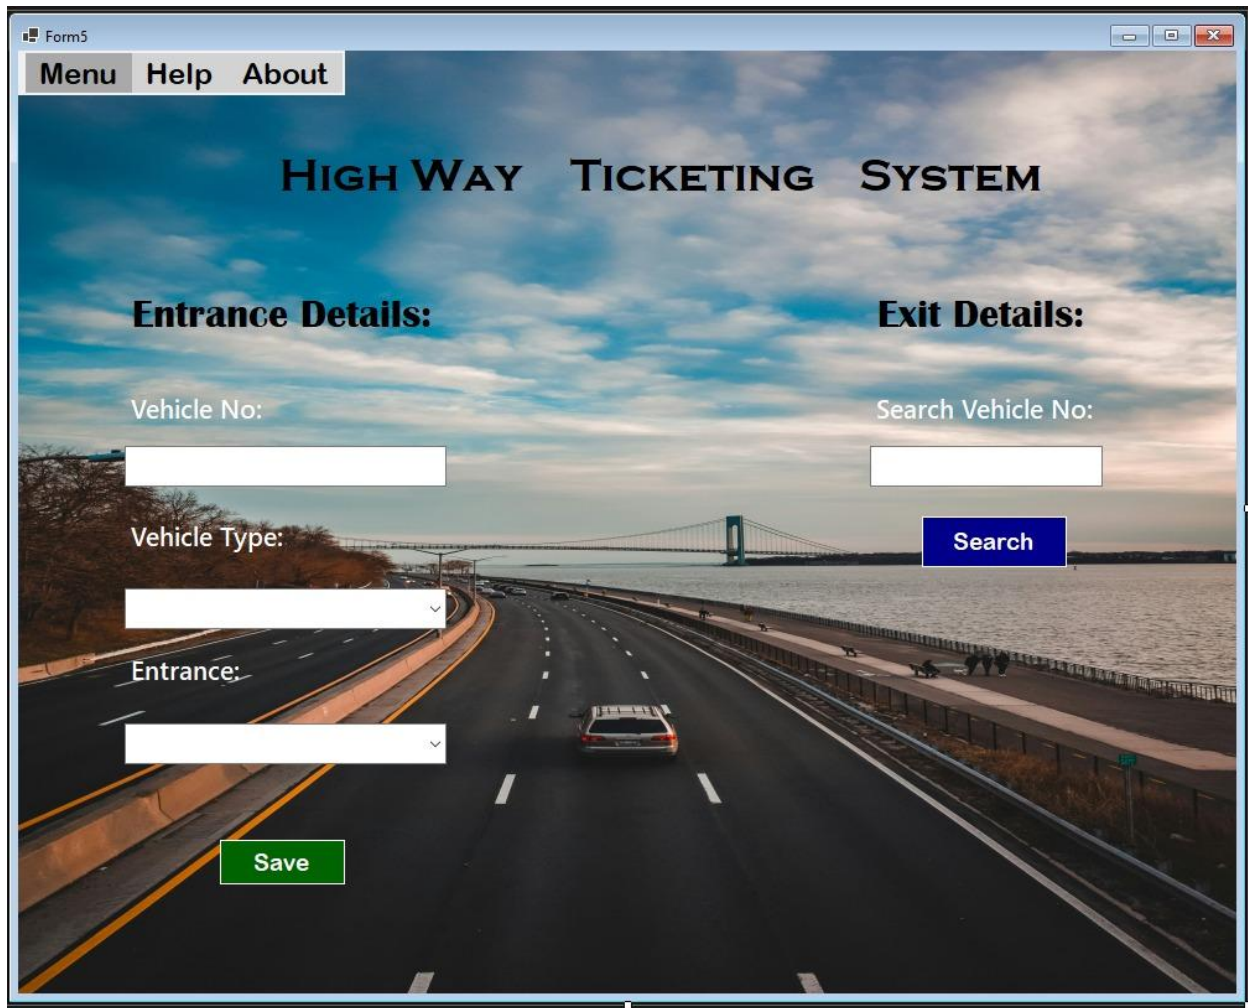

➤ **Form4(Successful Message with User ID).**

✓ Registration Success

This page confirms that the new employee has been successfully registered in the Highway Ticketing System. It displays a "**Registration Successful**" message along with the newly assigned User ID. **Employees should carefully note down this User ID**, as it will be required along with their password to log into the system.

➤ Form5(Entrance details & Exit details).

The screenshot displays a web application window titled "Form5". The interface features a navigation bar with "Menu", "Help", and "About" links. The main heading is "HIGH WAY TICKETING SYSTEM". The form is divided into two sections: "Entrance Details" and "Exit Details".

Entrance Details:

- Vehicle No:
- Vehicle Type:
- Entrance:
-

Exit Details:

- Search Vehicle No:
-

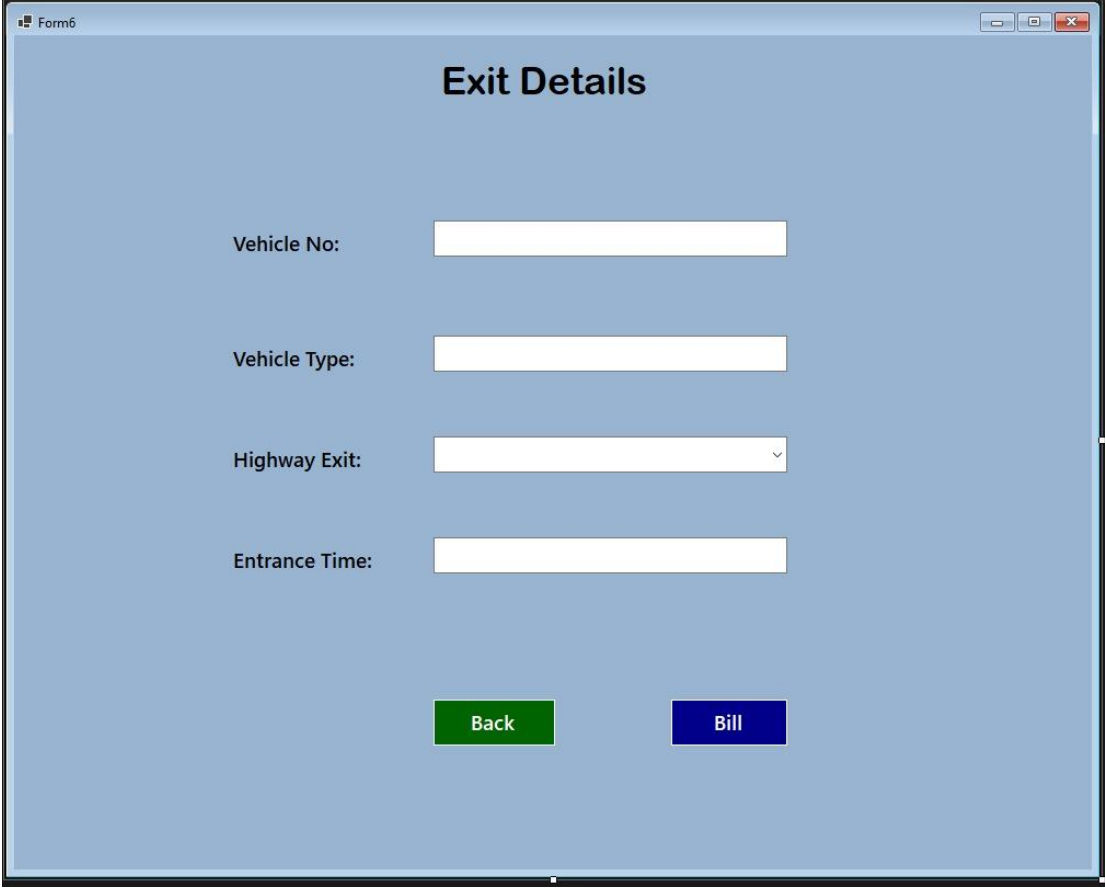

Vehicle Management Page

This page serves as the main workspace for employees after logging in. Here, employees at the entrance point can enter vehicle details such as **Vehicle Number**, **Vehicle Type**, and **Entrance Point Name** to register vehicles entering the highway. **Employees at the exit point can search for vehicles by entering the Vehicle Number** to retrieve entry details and prepare for billing.

Additionally, this page includes a **menu button**, which allows employees to navigate to other important pages of the system, as shown in the below screenshot. This makes managing entrance registrations, exit billing, and accessing other features simple and efficient.

The screenshot shows a web application window titled 'Form5'. The background is a scenic image of a highway bridge over water. The interface includes a top navigation bar with 'Menu', 'Help', and 'About' buttons, and a search bar labeled 'Type Here'. A dropdown menu is open under 'Menu', listing 'Employeeers Details', 'Today Statistics', 'Register', 'Today Statistics', and 'Logout'. Below the navigation bar, the main content area is divided into two sections: 'Entrance Details:' and 'Exit Details:'. The 'Entrance Details:' section has three input fields: 'Vehicle No:', 'Vehicle Type:', and 'Entrance:', each followed by a dropdown menu. A green 'Save' button is positioned below these fields. The 'Exit Details:' section has a 'Search Vehicle No:' input field and a blue 'Search' button. The title 'WAY TICKETING SYSTEM' is prominently displayed in the center of the page.

➤ Form6(Exit Details).

The screenshot shows a web application window titled "Form6" with a light blue background. The main heading is "Exit Details". Below the heading, there are four input fields with labels to their left: "Vehicle No:" followed by a white text box; "Vehicle Type:" followed by a white text box; "Highway Exit:" followed by a white dropdown menu with a small downward arrow; and "Entrance Time:" followed by a white text box. At the bottom of the form, there are two buttons: a green button labeled "Back" and a blue button labeled "Bill".

Exit Details Page

This page is used by employees at the **exit point** to finalize the vehicle's journey on the highway. It displays key details such as **Vehicle Number**, **Vehicle Type**, **Highway Exit**, and **Entrance Time**. Here, the exit employee can confirm the vehicle's exit information before generating the bill. This ensures that each vehicle is properly tracked from entrance to exit, supporting accurate toll calculation and billing. The page also includes menu options, as shown in your screenshots, to navigate to other parts of the system.

➤ Form7(Billing Form).

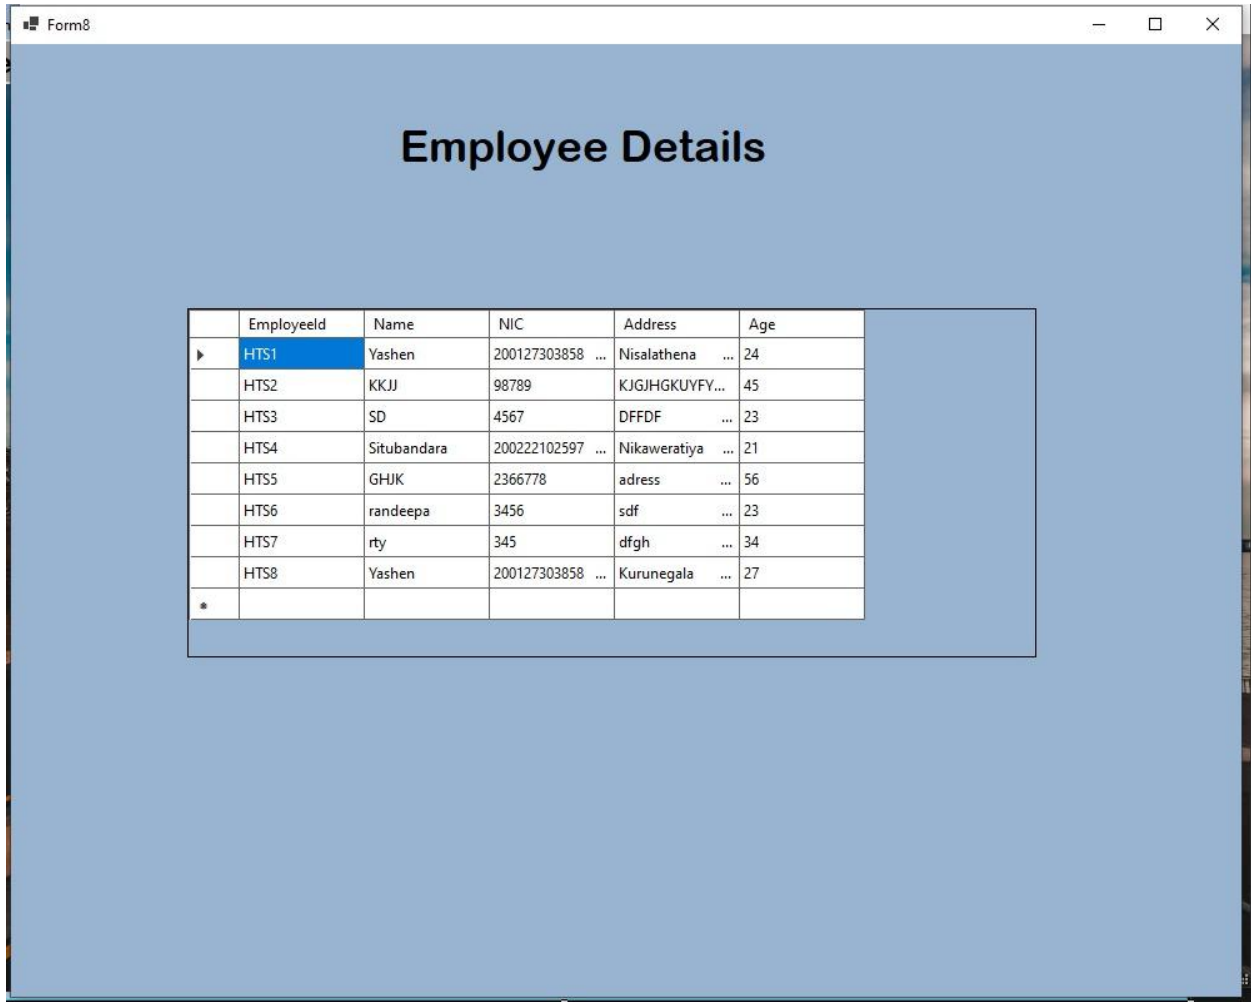

The screenshot shows a web browser window titled "Form7" displaying a "HighWay Bill" form. The form has a light blue background and contains the following fields and a button:

- Vehicle No:
- Vehicle Type:
- Entrance:
- Exit:
- Entrance Time:
- Price:
-

Highway Bill Page

This page allows the exit point employee to **generate the final bill** for a vehicle exiting the highway. It displays all necessary billing details and provides a "**Print**" button so the employee can print a copy of the bill and give it to the driver. This ensures the vehicle is properly charged for its highway usage before leaving the system.

➤ Form8(Employee Details).

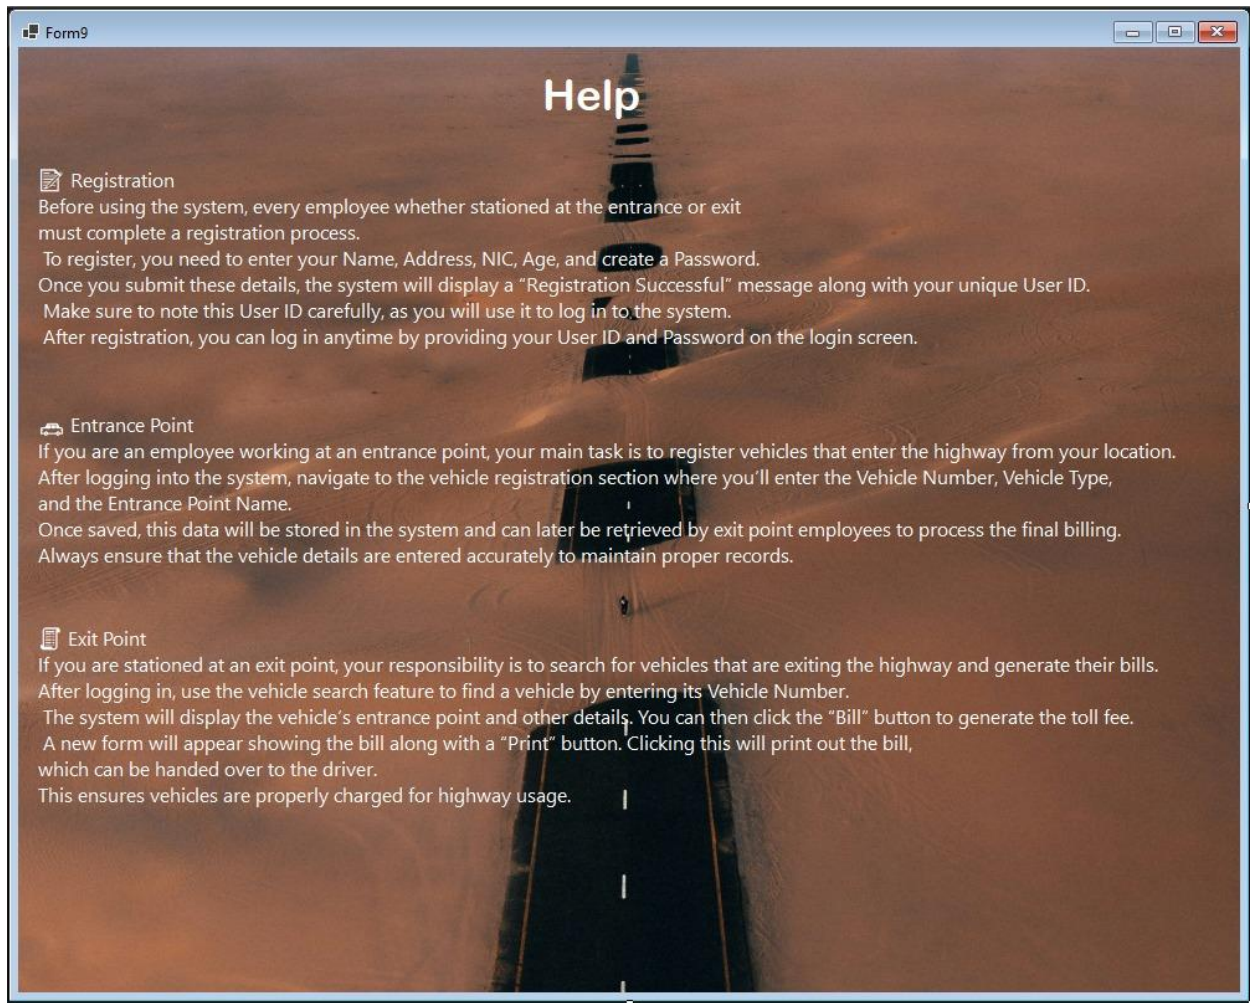

EmployeeId	Name	NIC	Address	Age
HTS1	Yashen	200127303858 ...	Nisalathena ...	24
HTS2	KKJJ	98789	KJGJHGKUYFV...	45

HTS4	Situbandara	200222102597 ...	Nikaweratiya ...	21
HTS5	GHIK	2366778	adress ...	56
HTS6	randeepa	3456	sdf ...	23
HTS7	rty	345	dfgh ...	34
HTS8	Yashen	200127303858 ...	Kurunegala ...	27

Employee Details Page

This page displays the **details of all registered employees** in the Highway Ticketing System. It allows you to view information such as **employee names, addresses, NIC numbers**, and other registration data. This helps in keeping track of who is authorized to use the system and ensures proper management of employee records.

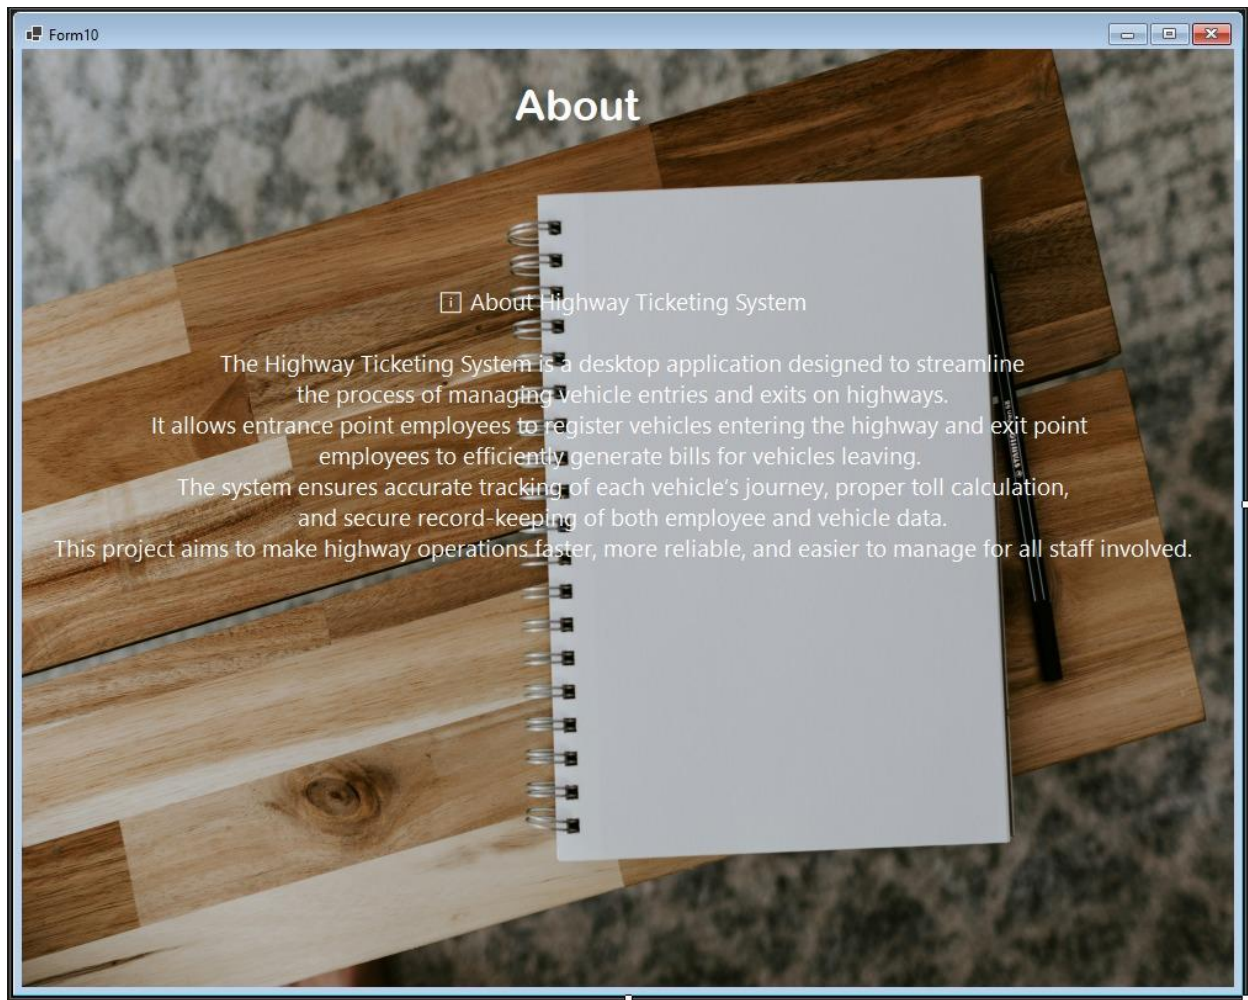

➤ Form9(help Section).

? Help Section

This page provides helpful guidance on how to use the Highway Ticketing System. If an employee encounters any difficulties or is unsure how to perform a task—such as registering, logging in, entering vehicle details, or generating bills—they can visit this Help Section to find clear instructions and solutions. It ensures employees can quickly resolve issues and continue their work without delays.

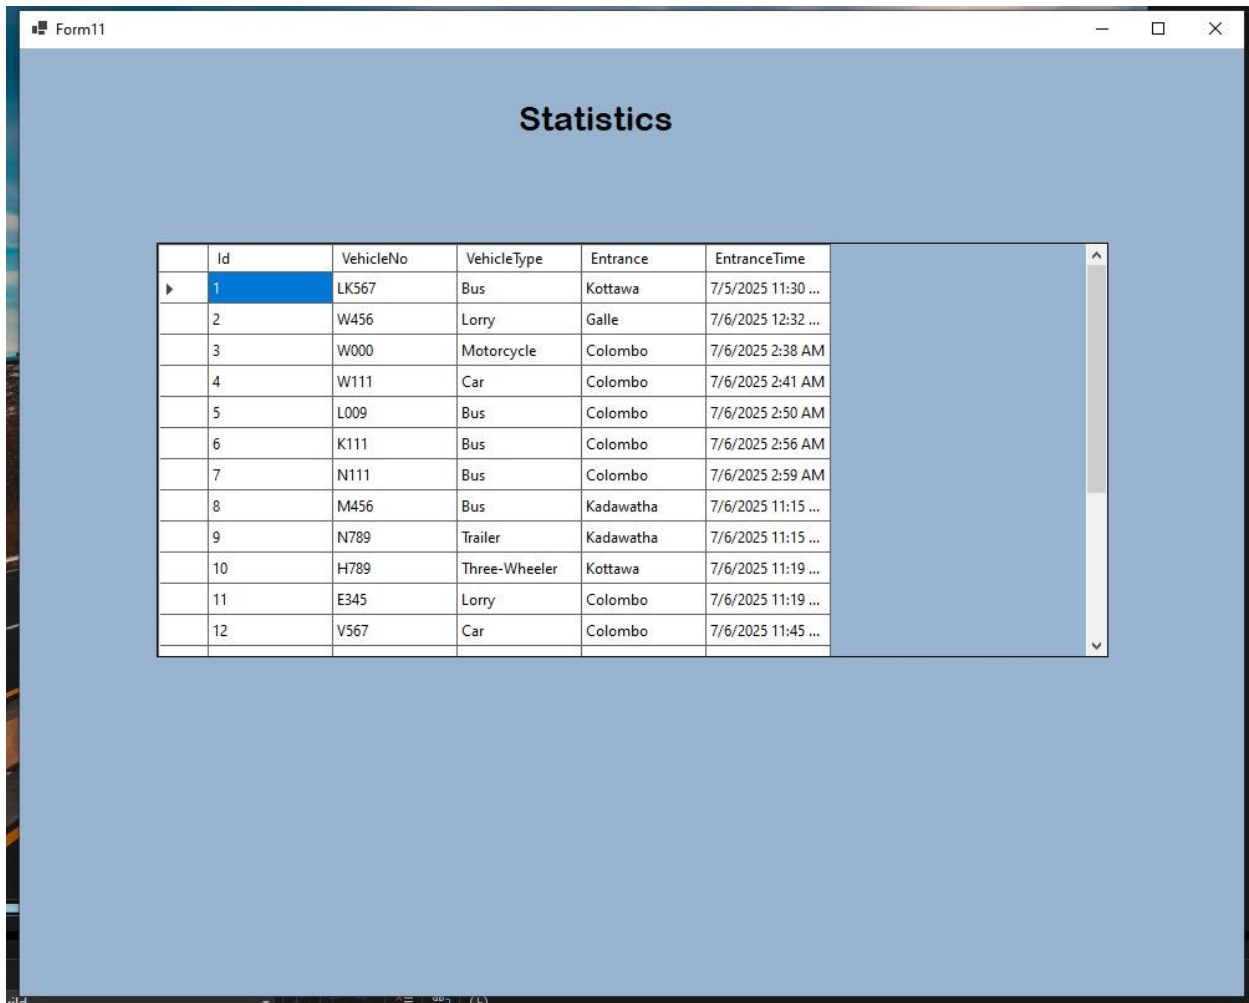

➤ Form10(About Section).

About Section

This page provides a brief overview of the **Highway Ticketing System**, helping new employees or visitors understand what the system is and how it works. It explains the main purpose of the application—managing vehicle registrations at entrance points and generating bills at exit points—to ensure smooth and accurate highway operations. This section is a quick introduction for anyone new to the system, giving them a clear idea of its features and benefits.

➤ Form11(Statistic Form).

The screenshot shows a web application window titled "Form11". Inside, there is a section titled "Statistics" which contains a table with 12 rows of vehicle data. The table has columns for Id, VehicleNo, VehicleType, Entrance, and EntranceTime. The first row is highlighted in blue.

	Id	VehicleNo	VehicleType	Entrance	EntranceTime
▶	1	LK567	Bus	Kottawa	7/5/2025 11:30 ...
	2	W456	Lorry	Galle	7/6/2025 12:32 ...
	3	W000	Motorcycle	Colombo	7/6/2025 2:38 AM
	4	W111	Car	Colombo	7/6/2025 2:41 AM

	11	E345	Lorry	Colombo	7/6/2025 11:19 ...
	12	V567	Car	Colombo	7/6/2025 11:45 ...

Statistics Page

This page displays important **statistics and records** of highway usage. It includes details such as the **Vehicle Number**, **Entrance Point**, **Exit Point**, and **Vehicle Type or Name**, giving a clear overview of traffic flow and vehicle movements on the highway. This helps employees and administrators monitor operations, track vehicle patterns, and ensure accurate record-keeping for reporting and analysis.
